Hamidiye Academy has worked hard to create a challenging, safe and rewarding environment for our students.

Led by dedicated staff and teachers and supported by a long tradition of parental involvement, we've been able to achieve our goals of providing superior educational and developmental opportunities for our students, and having a positive impact on the surrounding community.

BOARDING PROGRAM

High quality, homely, supportive boarding environment

Mankind has accepted the boarding school as the most productive form of education and it has been used by many different civilisations for at least 1500 years. There are many examples within the Islamic community and European civilisations. One can immediately think of many examples from Ashab-i Suffa to Enderun to the deep-rooted English boarding schools that have been running for over five centuries.

Hamidiye Academy focused on providing an educational experience that is safe, nurturing and individualized for our students.

Objective is to provide students a chance opportunity to work to their highest potentials and achieve academic excellence.
